

# ONYX

## CMMC Level 1 readiness, with a clear finish line

For small DoD subcontractors (1–25 people) that handle Federal Contract Information · Virginia, Maryland, DC, North Carolina

### WHAT LEVEL 1 ASKS OF YOU

- Meet the **15 basic safeguarding requirements** in FAR 52.204-21(b)(1): unique logins, antivirus, updates, locked areas, a visitor log, media disposal and more.
- Do a **self-assessment every year** and enter the results in **SPRS** (32 CFR 170.15).
- A **senior official at your company affirms** in SPRS (32 CFR 170.22). Onyx never signs for you.
- **All 15 must be met**; Level 1 has no "fix it later" plan (32 CFR 170.15(a)(1)).
- **Keep the evidence 6 years** (32 CFR 170.15(c)(2)).

### WHAT YOU GET

- **Written policies** covering all 15 requirements, filled in for your company.
- **Evidence binder**: screenshots, lists and logs, organized by requirement.
- **Guided SPRS affirmation**: we walk your senior official through it.
- **~21-day target** once payment, access and inputs are ready. Client delays pause the clock.
- **You keep everything** we build.

### FIXED PRICES

|                                                                                         |                 |
|-----------------------------------------------------------------------------------------|-----------------|
| Fit Call, 20 minutes                                                                    | <b>Free</b>     |
| Readiness review: all 15 requirements, written gap list (credited in full toward setup) | <b>\$495</b>    |
| Level 1 setup, 1–10 people                                                              | <b>\$3,500</b>  |
| Level 1 setup, 11–25 people                                                             | <b>\$4,500</b>  |
| Optional annual review                                                                  | <b>\$750/yr</b> |

Invoiced to your business. Pay by ACH, Zelle or check.  
Setup: 50% to start, 50% on delivery.

### WHAT WE DON'T DO

- **IT work.** Your IT person or provider keeps the technical side.
- **Level 2 / CUI.** If you receive controlled drawings or specs, you likely need Level 2. We'll say so on the Fit Call.
- **Certification or guarantees.** Onyx is not a C3PAO. No one can guarantee a contract award.
- **Legal advice.**
